It's No April Fool's Joke—Team PRP to Expand Its Transportation Network Yet Again!

Four Current Members Will Soon Incorporate Their Parts Into the Denver Hub

Louisville, KY (April 1, 2022)— Team PRP, the nation's largest 131-member group of independently owned auto recyclers, announces the addition of *four more yards* to its transportation network.

“These facilities have long been part of the Team PRP family, and we’re excited to make their inventory available to other members of the network.” said Jarret Hann, executive director of Team PRP. “Each of these facilities is run by a fully committed owner who sees the value in their membership. Throughout this process, they have been actively helping one another to make the expansion possible. We’re looking forward to the exciting change for our elite group of professional recycling partners.”
